POLITICAL AFFAIRS ABROAD.

The foreign news by the Alameda is of more than usual interest. Dispatches from Chile are contradictory and perhaps equally unreliable when representing either side of the question, but the balance of evidence as far as we can judge at this distance appears to be in favor of the insurgents. From Iquique in the north it is reported, February 9th, that the insurgents are maintaining a strict blockade of the town, and that it is only a question of a few days or hours when they will have complete control of the city. A German steamer arriving at Callao reports a Chilean corvette (presumably insurgent) patrolling the Straits of Magellan, and at Coronel, a coal port in the south, she saw the Emerald fire repeatedly on the forts of the town and drove the rebel troops on shore inland. The blockading vessels in the port of Valparaiso keep a strict watch over the port, and would not allow the Roma to enter, she accordingly landed her Valparaiso freight at Coquimbo. A small sheet printed at Valparaiso says, "Up to January 31st Iquique, Valparaiso and Concepcion remained faithful to the Constitution and supported the army which is patriotically defending the interests of the people and nation. At Santiago the largest meeting ever held in Chile passed resolutions calling on President Balmaceda to give proof of his patriotism and change his political advisers. The Supreme Court in Santiago has endorsed the conduct

of Congress, and stated that various acts of Balmaceda since January 1st are illegal. The British ships Champion, Acorn, and the Phasant are on the Chilean coast and the Flagship Warspite expected momentarily, February 9th, at Valparaiso. Coquimbo and La Suena are aiding the insurgents. The U. S. S. Baltimore is expected to arrive in Chilean waters in the second week in March, when, it is supposed, Admiral McCann will shift his flag from the Pensacola to the Baltimore. It is also probable that the Charleston will join the South Pacific Squadron, instead of the San Francisco which will be attached to the North Pacific Squadron as Flagship of Admiral Brown.

The Canadian elections up to March 9th, give the numbers as, 117 Conservatives and 93 Liberals, being a majority for the former of 24, with five constituencies yet to be heard from. This, though a smaller majority than was expected by Sir John Macdonald and his friends is held by the Conservative party to be satisfactory.

For Hawaiian news which is really new we must look abroad. At Chicago, on March 6th, a Mr. Gladding of San Francisco, who is "thoroughly acquainted with Hawaiian affairs," says, "I believe the report that General Ashford is in possession of Hawaii, for I know what kind of a man the General is. He (Ashford) told me three months ago that the native party was weak and the missionary party not over strong. What is wanted is some enterprising man to head movement to secure the sympathizers from both parties. I believe now," says this well-informed gentleman, "that the enterprising man he meant was none other than himself. I am certain," proceeds this well-informed, etc., "that Ashford was in London two weeks before the King's death, but he must have reached Honolulu in the Charleston which conveyed Kalakau's body home!" "I would not be surprised to learn by next steamer from Honolulu that Volney V. Ashford, Illinoisan, was handling the Hawaiian Kingdom," etc.

At Chicago also Mr. Abraham Hoffnung, Hawaiian Charge d'Affaires in London, has also been interviewed, and "smiled when his attention was drawn to a dispatch stating that one Volney V. Ashford was at the head of an insurrection against the Queen. * * * The report, too, about the Queen calling for the resignation of the Ministers is doubtless incorrect. * * * "It is not unlikely that a treaty will be made with Australia, with the result that certain of the privileges which the United States now enjoy would cease. The United States, though, is the natural market of Hawaii, and a very little effort on the part of this (the U. S. Government) would retain all the privileges it now enjoys."

The Chief of the Bureau of Yards and Docks in the Navy Department, speaking of the appropriation of \$700,000 for a naval dock at Pearl River, said nearly all of this large amount would be required to blow up the reef at the mouth of the harbor, and several hundred thousand more would be required to build the dock.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

Regarding Rev. Mr. Gowen. Mr. Editor: A paragraph in this morning's ADVERTISER has attracted a good deal of attention from the many friends in this city of the Rev. H. H. Gowen, who is said to have "definitely announced to the Secretary of the Society for the Propagation of the Gospel that he has no intention of returning to Honolulu."

Mr. Gowen's friends would be glad to learn whence this piece of information was derived, as it conflicts directly with the latest correspondence addressed by Mr. Gowen to this country. Several letters were received here by the last mail from Mr. G., who writing from Great Yarmouth on the 13th February last said "I am sorry I can't * * * return at once, partly because I have promised to abide by the Archbishop's advice, and partly because I am hoping for a more satisfactory arrangement before my return." Mr. Gowen speaks of his present work and derangement of his plans by unexpected delay, but hopes that a month hence certain correspondence will have reached a stage that may enable him to look forward more clearly.

The paragraph in the ADVERTISER

I find ought to have been credited to the "Honolulu Diocesan Magazine," published under the direction of the Bishop, so in the matter of the Rev. Mr. Gowen's non-return probably the wish was father to the thought.

ANGELICAN.

March 15, 1891.

OUR SAN FRANCISCO LETTER.

Per O. S. S. Alameda, San Francisco, March 7, 1891.

(From our special correspondent.)

(Concluded.)

The Tourist Business.

A. Rice, who represents the Oceanic Steamship Company as their tourist agent, has been doing a great service for the Islands in Southern California, whither he went to work up the tourist business. He has sent circulars all over the state this year, and when invited to call he has imparted to them much valuable information about the Islands.

San Francisco News.

A scandal has been created at Sacramento by the statement in the Examiner that Elwood Bruner, representative from Sacramento, has been bawling places on the San Francisco police force for \$400.

The Southern Pacific Company has been heavily damaged by recent storms in Southern California. Many washouts are reported and the city of Yuma has been flooded.

By the terms of the Post Office Appropriation bill just passed by Congress San Francisco gets \$1,250,000 for a new post office site.

The remains of Captain J. H. Colcord, master of the ill-fated Elizabeth, have been found on the rocks near where the Elizabeth was lost. The wreckage of the Elizabeth is being gone over by Captain T. P. H. Whitelaw.

The Chinatown highlanders are preparing for another battle, the opposing societies being the Eh Ying Tong and the Sing Tong.

The Nicaragua Canal.

The Nicaragua Canal Bill which gave promise of a successful career in the earlier part of the last session of Congress, and which caused a great deal of hot discussion, was gradually relegated to oblivion and was finally lost sight of entirely during the wind-up of the session. The objections to it were principally Democratic and directed toward the doctrine of giving Government support to private corporations. An attempt was made to save the measure by offering an amendment providing that after a term of years subsequent to the completion of the canal, it should be delivered to the Government upon the payment to the canal company of 5 per cent of the \$10,000,000 advanced by the Government. This effort failed and when it was shown that the expenditure of this immense amount of money was to be in the charge of private parties and not under Government supervision, the bill lost its charms, and was never called up again.

With a large Democratic majority in the next House there is no possibility of the bill getting favorable consideration for two years at least.

American News.

An English syndicate which has been trying to purchase the Moline Plow Works at Moline, Illinois, has brought suit against the company for \$225,000 for breach of contract. The company backed out after the first deposit was made.

A Gutenberg bible formerly owned by Braxton Ives has been sold to J. W. Ellsworth for \$14,800. The book was printed in 1450 and is in Latin.

Ex-Senator Pierce of North Dakota is believed to be the one who will be appointed Minister to Central America to succeed Mizner.

Secretary Tracy has made the statement that the navy will need six to nine more battleships of 10,000 tons each, four to six harbor defense vessels and twelve torpedo boats. Then the navy will be a better fighting one than that of any country, not excepting England. The additional cost he places at \$65,000,000.

The Treasury Department's latest report by Special Agents Goff Lavender, Murray and Nettleton shows that the number of the fur seals on the Pribilof Islands has been reduced by 75 per cent in the last few years. If the destruction continues there will be no seals left for England and America to quarrel over.

C. S. Bushnell of New Haven has invented a new dynamite gun for use on torpedo boats. It will destroy any netting around a warship and the charge will go 750 feet under water before exploding.

Annie E. Dickenson, the lecturer, is insane. The spring auctions of California horses are in progress in New York. Stock from Stanford's, Corbett's, Valensia's and Rosa's farms has been sold at good figures.

Nine members of the Mafia, the Italian highlanders society, are on trial in New Orleans about the murder of Chief of Police Hennessey. The evidence thus far adduced is very convincing.

Suit is to be brought by the heirs of the late John C. Fremont to recover Alcatraz Island in the bay of San Francisco.

Chicago is to have the tallest building in the world. It will be twenty-four stories high and will be built entirely of steel.

Leonard Jerome one of the leaders of the American turf died at New York on the 4th inst. after a short illness.

The Congressional Committee on Chinese immigration has made a report favoring more rigid exclusion measures than now in force.

Twenty-eight thousand coal miners of Western Pennsylvania have struck for higher wages. The River mines employed 15,000 of them, the Connellville coking district 12,000 more and 1,000 more worked about the coking furnaces. Many Mormons are moving from Utah to their recently acquired lands in the State of Chihuahua, Mexico.

Foreign News.

A complete statement of the result attained by the use of Koch's lymph in the German hospitals has been published. Out of 1,061 patients with internal tuberculosis 15 were cured, 171 considerably improved, 194 improved, 886 not improved and 16 died. Of 708 with external tuberculosis 15 were cured, 148 considerably improved, 237 improved, 298 not improved and 9 died.

The man-of-war Albatross has arrived at Panama and is about to investigate the fishing grounds near the Galapagos Islands. The steamer found fine fishing banks in the Gulf of California. She

will make a summer cruise in the Behring Sea.

General Ezeta has been formally declared President of Salvador.

Heavy stocks of silver are being sold by Americans in London in consequence of the failure of Congress to pass a free coinage law.

Sir Charles Dilke has announced himself as a candidate for Parliament from Gloucester. He has published a circular tending to exculpate him from the scandal which led to his retirement from English public life some years ago.

The Canadian elections have resulted in the re-election of a Conservative majority to the Legislature, though the majority is smaller than before. This is considered an endorsement of Sir John Macdonald's policy.

The Chilean war still continues, and at latest reports the insurgents were getting the best of it. They hold the nitrate ports and blockade all others. It is reported that there is danger of a famine in Santiago.

Guatemala is preparing for another war. \$4,000,000 have been raised by President Barrios to sustain his government.

Bavaria's crazy king, Otto, is dying. Professor Liebrich has announced a new remedy for consumption. He will shortly appear before the Berlin Medical Society.

Empress Frederick has left France, after vainly trying to persuade French artists to exhibit their works in Germany. Her visit nearly precipitated a political crisis. The relations between France and Germany are much less cordial than before she went to Paris.

The Australian Federation Conference met at Sydney on the 2d inst. The results of its deliberations are not yet known.

The Chinese Government has apologized to the Russian Government for the Russian Minister's reception in Peking. The French announce a new remedy for consumption by inhalation.

Fort Street, Honolulu.

THE BEST WINDMILL KNOWN! LASTS THE LONGEST AND DOES THE MOST WORK!

The 27-ft Geared Windmill gives most excellent satisfaction, it drives the following machinery: Three trundles for cleaning castings; one pump, 4 1/2 cylinder, 8 in stroke, raises water 58 feet high; three emery wheels, one emery brush wheel, one circular saw, 12 in.; one wood lathe, one upright drill, one drilling lathe for stern castings.

The Mill takes care of itself perfectly; in a heavy gale the wheel folding out of the wind when the gust strikes it and coming back promptly as the force of the wind subsides.
